A young artist, Atreyu Moniaga is bringing his message of the way he feels towards the things around him through art

Raised in Jakarta, Atreyu Moniaga's encounter with art scheme came from his involvement with art ever since he was in college. Started his interest as a photographer and illustrator, Atreyu Moniaga's works are inspired by life, stories, and sadness. Somehow he found himself inspired and obsessed with dark fantasy, surreal things, and a little bit of creep.
