

Vinyl on Vinyl is dedicated to featuring modern-day pop culture artists seeking to find a venue to showcase and explore their craft amidst the surplus of conventional art forms. The gallery reflects the lifestyle and passion of its artists influenced by surrealism, after-modernism, underground and street art; along with other emerging and unexplored genres, its uniqueness lies in selecting artists who delve into various contemporary and cultural interest as well as immediate experiences through the visual language and techniques of fine art. Vinyl on Vinyl aims to showcase a distinct perspective on South East Asian Art.
